Professional

Session Objectives & Agenda

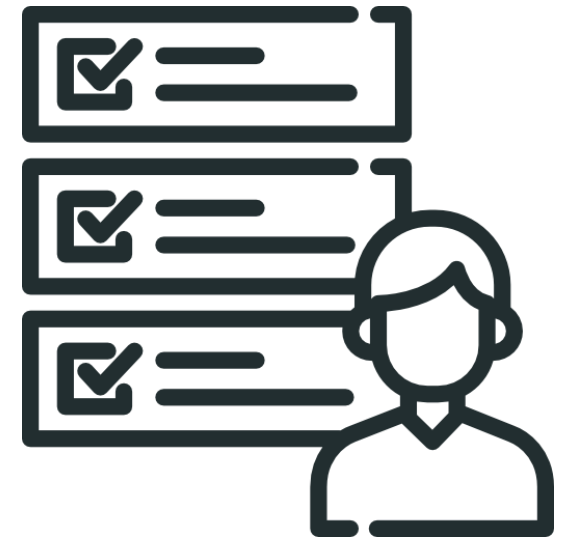

- Designing a professional scorecard can be challenging
 - There's dozens of visualizations to choose from...
 - Even more ways to organize them in the report!
- Learn about some great custom visuals
- In conjunction with DAX calculations
- Plus a little bit of design wizardry

Resulting in an impactful and well-designed report!

Session Agenda

- **Section One**
 - Leveraging DAX generated tables
 - Designing a scorecard from a Matrix Table
- **Section Two**
 - Creating supporting DAX measures
 - KPI Icons, with additional supporting DAX
- **Section Three**
 - DAX and KPI Conditional Formatting
 - Custom Visual Sparklines
- **Section Four**
 - Design practices, formatting, and final touches
